PERMANENT AND FIXED PERIOD EXCLUSIONS FROM SCHOOLS AND EXCLUSION APPEALS IN ENGLAND, 2008/09

This Statistical First Release (SFR) provides information about permanent and fixed period exclusions from primary, secondary and special schools and exclusion appeals in England during 2008/09 as reported in the School Census. It reports national trends in the number of permanent and fixed period exclusions together with information on the characteristics of excluded pupils such as age, gender, ethnicity, free school meal eligibility and special educational needs as well as the reasons for exclusion.

It should be noted that most of the data refers to cases of exclusion, rather than the number of pupils excluded, as some pupils were excluded more than once during the year.

KEY POINTS

Number of Permanent and Fixed Period Exclusions

- There was an estimated 6,550 permanent exclusions from primary, secondary and all special schools in 2008/09, which represents 0.09 per cent of the number of pupils in schools (9 pupils in every 10,000). Compared with the previous year the number of permanent exclusions has decreased by 19.4 per cent. See Technical Note 5 for further assessment of the factors likely to have contributed to the decrease.
- In 2008/09 there were 307,840 fixed period exclusions from state funded secondary schools reported compared with 324,180 in the previous year. There were 39,510 fixed period exclusions from primary schools and 15,930 fixed period exclusions from special schools. See Technical Note 5.
- The average length of a fixed period exclusion in state funded secondary schools was 2.6 days, for primary schools the average length of a fixed period exclusion was 2.2 days. The majority of fixed period exclusions (almost 97 per cent) lasted one week or less.
- Of pupils receiving fixed period exclusions in 2008/09, 61 per cent had one episode of fixed period exclusion, 19 per cent had two exclusions, 9 per cent had three exclusions, 5 per cent had 4 exclusions and 6 per cent had 5 or more exclusions.

Age and Gender

- In 2008/09 the permanent exclusion rate for boys was approximately 3.5 times higher than that for girls. Boys represented 78 per cent of the total number of permanent exclusions.
- In 2008/09 the fixed period exclusion rate for boys was almost 3 times higher than that for girls. Boys accounted for some 75 per cent of all fixed period exclusions.
- Boys are more likely to be excluded (both permanently and for a fixed period) at a younger age than girls, with very few girls being excluded during the primary years. The most common point for both boys and girls to be excluded is at ages 13 and 14 (equivalent to year groups 9 and 10); around 54 per cent of all permanent exclusions were of pupils from these age groups.

Special Educational Needs

- Pupils with SEN (both with and without statements) are over 8 times more likely to be permanently excluded than those pupils with no SEN. In 2008/09, 24 in every 10,000 pupils with statements of SEN and 30 in every 10,000 pupils with SEN without statements were permanently excluded from school. This compares with 3 in every 10,000 pupils with no SEN.
- The figures show a small decrease in the rate of fixed period exclusions across all school types for those pupils with SEN compared with the previous year. In 2008/09, the rate of fixed period exclusion for those pupils with statements was 19.1 per cent; the rate for those with SEN without statements was 14.2 per cent. This compares to 2.2 per cent for those pupils with no SEN.

Ethnic Group

- The rate of permanent exclusion was highest for Gypsy/Roma (0.38 per cent of the school population), Traveller of Irish Heritage (0.30 per cent of the school population), and Black Caribbean (0.30 per cent) ethnic groups. Black Caribbean pupils are 3 times more likely to be permanently excluded than the school population as a whole.
- The rate of fixed period exclusion was highest for Traveller of Irish Heritage (17.06 per cent of the school population), Gypsy/Roma (15.70 per cent) and White and Black Caribbean (11.44 per cent) ethnic groups.

Caution is recommended in interpreting the data for Traveller of Irish Heritage children and Gypsy/Roma children due to potential under-reporting for these ethnic classifications.

Free School Meal Eligibility

- Children who are eligible for free school meals are around 3 times more likely to receive either a permanent or fixed period exclusion than children who are not eligible for free school meals.

Reasons for Exclusion

- The most common reason for exclusion (both permanent and fixed period) was persistent disruptive behaviour. Some 29.6 per cent of permanent exclusions and 23.3 per cent of fixed period exclusions were due to persistent disruptive behaviour.
- 11.1 per cent of permanent exclusions and 4.7 per cent of fixed period exclusions were due to physical assault against an adult.

Academies

- The rate of permanent exclusion from academies is 0.31 per cent (a decrease from 0.42 per cent in 2007/08). The rate of fixed period exclusion in academies is 13.5 per cent (compared to 13.7 per cent in 2007/08).

Exclusion Appeals

- In 2008/09 there were 640 appeals lodged by parents against the permanent exclusion of their child, a decrease of 17 per cent since 2007/08, in line with the decrease in the number of exclusions.
- Of the appeals heard, 25 per cent were determined in favour of the parent, a decrease of 0.8 percentage points since 2007/08. Of these, reinstatement of the pupil was directed for 39 per cent, an increase of almost 4 percentage points since the previous year.

TECHNICAL NOTES

1. A fixed period exclusion refers to a pupil who is excluded from a school but remains on the register of that school because they are expected to return when the exclusion period is completed. A permanent exclusion refers to a pupil who is excluded and their name removed from the school register. Such a pupil would then be educated at another school or via some other form of provision.
2. Information on exclusions is derived from School Census (SC) returns. In January 2006 the SC moved to a termly collection cycle for secondary schools (there was a census in the Spring, Summer and Autumn terms). Each census collected information on exclusions that occurred two terms previous to that in which the census fell, i.e. exclusion data relating to the autumn 2006 term was collected in the summer 2007 School Census. Primary and special schools moved to this termly collection in January 2007.
3. The termly collection of data also signified an extension to the scope of exclusions data collected via SC. From the 2005/06 school year, the SC collected information on fixed period exclusions and the reasons for exclusion. Previously this information had been collected via the Termly Exclusions Survey which was discontinued after the collection of data relating to the 2004/05 school year. This change to the collection of data does present a gap in the information collected from primary and special schools for fixed period exclusions and the reasons for exclusion. Data for the 2005/06 school year is not available for these schools. CTCs and academies first returned information on permanent exclusions in 2000/01 and for fixed period exclusions in 2005/06.
4. Data are collected two terms in arrears, meaning that where a school closes data are not collected for the last two terms the school was open. Information was collected from schools open at the time of the relevant termly census.
5. The number of exclusions has been under-reported in SC returns for some schools. As in previous years the Department carried out a data checking exercise with Local Authorities to confirm the number of permanent exclusions. This checking exercise has filled most of the data gap caused by closing schools but there may still be a small element of undercounting. We have carried out some analysis which suggests that the number of permanent exclusions in primary schools may be undercounted by up to 10 (1%), and permanent exclusions in state-funded secondary schools by around 100 (2%). The effect on special schools is negligible. However, Local Authorities and schools have been working in a number of ways to reduce the need for exclusion, for example, by focussing on improving behaviour and by employing alternatives to permanent exclusion such as 'managed moves'. This rather than the data gap explained above is likely to be a key factor in the large decrease shown in the latest permanent exclusion figures. Information on the characteristics of permanently excluded pupils given in this document is based upon an analysis of 6,242 pupil level returns as recorded by schools in the SC, with the underlying distributions being applied to the total number of permanent exclusions as confirmed by LAs (6,546). No adjustments have been made in the SFR in relation to the data gap for fixed period exclusions. Analysis suggests that the number of fixed period exclusions may be undercounted by up to 400 (1%) in primary schools, in state-funded secondary schools by around 7,000 (2%) and by up to 100 (1%) in special schools. Earlier years are similarly affected but for secondary schools the affect is more marked in the later years because of the growing number of academies and associated school closures. This will impact on the local authorities where new academies have been created so caution is need when comparing local authorities.

6. In January 2002 a new SEN Code of Practice replaced the five stage model of the 1994 SEN Code with pupils at School Action, School Action Plus or with a statement of SEN. For this reason numbers of children with SEN without statements reported in 2002/03 (for the 2001/02 academic year) and later are not directly comparable with earlier years.
7. Information on exclusions by ethnic group and free school meal eligibility is derived by linking with pupil level records collected via the School Census and held in the National Pupil Database. For each exclusion, a check was made in the NPD for that pupil's record from the excluding school in the Spring 2009 Census. The ethnic group and free school meal eligibility were taken from this record. If no record was found, for example if the pupil was permanently excluded from that school prior to the Census, then a check was made on a number of other Census until a record was found. The hierarchy of Census checks is: the Spring 2009 Census, the Autumn 2008 Census, the Summer 2009 Census, then the Spring 2008 Census.
8. Where information on the number of pupils has been included, this refers to pupil enrolments rather than the number of pupils. Where a pupil has moved schools during the year, they may be counted more than once (if they were excluded from more than one school).

Revisions/Updates

9. There are no planned revisions to this Statistical First Release, however, if at a later date we need to make a revision, this will comply with the departmental revisions policy which is published at <http://www.dcsf.gov.uk/rsgateway/nat-stats.shtml>. Underlying data relating to this SFR will be released at a later date and will be pre announced on the Research and Statistics Gateway.

General

10. The description 'maintained primary schools' refers to those schools maintained by the local authority, include middle schools deemed as primary. The description 'state-funded secondary schools' refers to those schools maintained by the local authority, including middle schools deemed as secondary, city technology colleges and academies. All academies are classed as secondary schools, including those that cater for both the primary and secondary age range. Most of the tables now include city technology colleges and academies along with LA maintained secondary. However in cases where there is expected to be continued interest, the figures for LA maintained secondary schools only have also been provided. Caution is needed when using LA maintained secondary figures because of the growing numbers of academies and consequent reduction in the number of LA maintained secondary schools.
11. Pupil numbers at national and regional levels have been rounded to the nearest 10. Pupil numbers from 1 to 4 inclusive have been suppressed, being replaced in the table by an 'x'. Where any number is shown as zero (0), the original figure was also zero. Where the numerator or denominator of any percentage calculated on pupil numbers is from 1 to 4 inclusive, this has been replaced by an 'x'.

12. The following symbols have been used within this publication:

- 0 – zero
- x – small number suppressed to preserve confidentiality (see Technical Note 10)
- .
- .. – not available

13. This is a National Statistics publication. National Statistics are produced to high professional standards set out in the *National Statistics Code of Practice*. They undergo regular quality assurance reviews to ensure that they meet customer needs. They are produced free from any political interference.

Source: School Census

- (1) Includes middle schools as deemed.
- (2) Includes city technology colleges and academies (including all-through academies).
- (3) Includes maintained and non-maintained special schools. Excludes general hospital schools.
- (4) SEN is recorded at the time of exclusion.
- (5) Figures relating to permanent exclusions are estimates based on incomplete pupil-level data. See Technical Notes 5.
- (6) The number of permanent exclusions expressed as a percentage of the total number of permanent exclusions.
- (7) The number of exclusions of pupils by SEN stage expressed as a percentage of all pupils with the same SEN stage in primary, secondary and all special schools (excluding dually registered pupils) in January each year.
- (8) The introduction of the new SEN Code of Practice means that the number of children with SEN without statements reported for the 2000/01 school year and later are not directly comparable with earlier years. Includes pupils with no SEN and pupils with SEN without statements. See Technical Notes 6.
- (9) Totals include a small number of pupils for whom stage of SEN was not known.

Totals may not appear to equal the sum of component parts because numbers have been rounded to the nearest 10.

- (1) Includes middle schools as deemed.
 (2) Includes city technology colleges and academies (including all-through academies).
 (3) Includes maintained and non-maintained special schools. Excludes general hospital schools.
 (4) Includes only pupils of compulsory school age and above so totals shown here will not match those given previously. Excludes dually registered pupils.
 (5) Ethnic group is as at the time of the January 2009 School Census. See Technical Notes 7.
 (6) Figures relating to permanent exclusions are estimates based on incomplete pupil-level data. See Technical Notes 5.
 (7) The number of excluded pupils expressed as a percentage of the school population of compulsory school age and above in each ethnic group.
 (8) Includes pupils whose ethnic information was not sought or was refused or could not be determined.
 (9) Pupils who have been classified according to their ethnic group, excluding White British.

. Not applicable

x less than 5, or a rate based on less than 5 exclusions.

Totals may not appear to equal the sum of component parts because numbers have been rounded to the nearest 10.

TABLE 14
ALL ACADEMIES (1)
PERMANENT AND FIXED PERIOD EXCLUSIONS
 England, 2008/09

	Permanent Exclusions			Fixed period exclusions				
	Number of schools	Number of permanent exclusions	Percentage of the school population (2)	Number of fixed period exclusions	Percentage of the school population (3)	Number of pupils with 1 or more episodes of fixed period exclusion	Percentage of the school population (4)	Average number of exclusions per pupil
Academies by cohort								
2002 openers (5)	3	10	0.15	340	10.13	210	6.28	1.61
2003 openers (5)	9	30	0.29	1,130	10.65	710	6.67	1.60
2004 openers (5)	5	20	0.44	800	14.58	460	8.39	1.74
2005 openers (5)	10	20	0.22	1,550	15.05	770	7.47	2.02
2006 openers (5)(6)	20	70	0.42	2,200	12.52	1,320	7.52	1.67
2007 openers (5)(6)	36	120	0.38	3,800	11.99	2,140	6.75	1.78
2008 openers (5)(6)	47	100	0.24	6,520	16.55	3,180	8.07	2.05
All academies (including new openers)(7)	133	370	0.31	16,430	13.51	8,850	7.27	1.86

Source: School Census

(1) Includes all academies open at September 2008; academies are shown by date of opening.

(2) The number of permanent exclusions expressed as a percentage of the number (headcount) of pupils in academies, open in relevant year.

(3) The number of fixed period exclusions expressed as a percentage of the number (headcount) of pupils in academies, open in the relevant year.

(4) The number of pupils who received one or more fixed period exclusions expressed as a percentage of the number (headcount) of pupils in academies, open in the relevant year.

(5) These figures refer to the new academies - those schools set up to replace one or more existing schools or to meet a need for additional school places.

(6) Excludes all cases of exclusion which occurred prior to the opening of the academy during part of the school year 2007/08.

(7) Totals include academies that opened in January 2009

Totals may not appear to equal the sum of the component parts because numbers have been rounded to the nearest 10.

TABLE 15
PRIMARY, SECONDARY AND SPECIAL SCHOOLS (1)(2)(3)
NUMBER OF PERMANENT AND FIXED PERIOD EXCLUSIONS BY FREE SCHOOL MEAL ELIGIBILITY (4)
 England, 2008/09 (ESTIMATES)(5)

	Primary Schools (1)		State funded secondary Schools (1)(2)		Special Schools (3)		Total (6)	
	Number of exclusions	Percentage of school population (7)	Number of exclusions	Percentage of school population (7)	Number of exclusions	Percentage of school population (7)	Number of exclusions	Percentage of school population (7)
Permanent exclusions								
Pupils eligible for free school meals	350	0.05	2,070	0.47	60	0.19	2,480	0.22
Other pupils	350	0.01	3,500	0.12	60	0.09	3,900	0.06
All pupils (6)	720	0.02	5,700	0.17	120	0.13	6,550	0.09
Fixed period exclusions								
Pupils eligible for free school meals	18,590	2.85	97,850	22.38	7,750	26.75	124,190	11.10
